* Most colleges and schools of pharmacy require one or more courses in anatomy and/or physiology and will accept separate courses OR combined A&P I and II courses. Labs requirements vary. Visit the PharmCAS School Directory for school-specific details.

** The mean and median calculations only include programs with one or more course prerequisites in the subject.

*** Please refer to the PharmCAS School Directory for additional details.

Colleges and schools of pharmacy may change course prerequisites for the Doctor of Pharmacy (Pharm.D.) degree program at any time and may have additional requirements, preferences, or policies that are not reflected in this summary or on the PharmCAS School Directory.

Schools may also allow applicants to substitute courses or choose different prerequisite tracks. Applicants should review the PharmCAS School Directory for program-specific details and contact programs directly to determine whether a particular course will fulfill a prerequisite.

Some colleges and schools of pharmacy have more than one pathway or campus for Pharm.D. degree students.
